

Concrete Solutions

Special Applications in Slipform

24 June 2010

The British In-situ Concrete Paving Association

Special Applications

Develop and Test new Slipform Solutions

Market Awareness

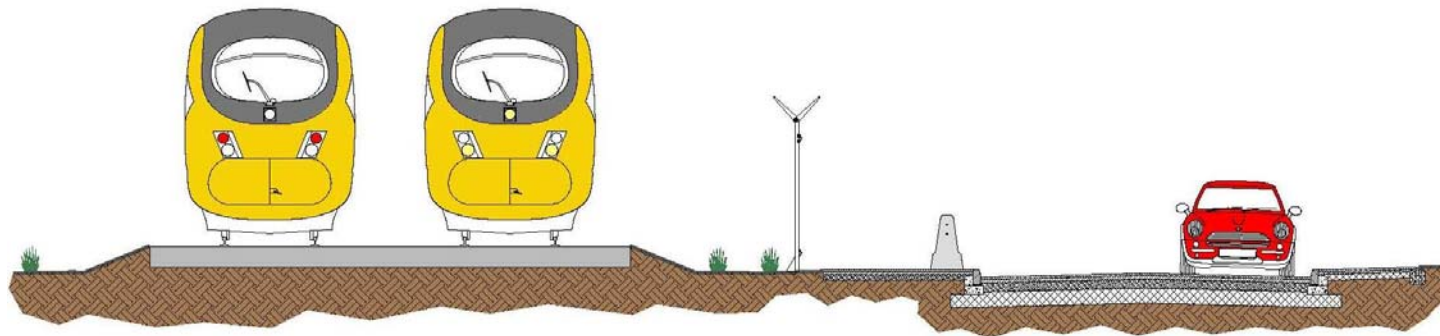

Road Safety Barrier

Well known product

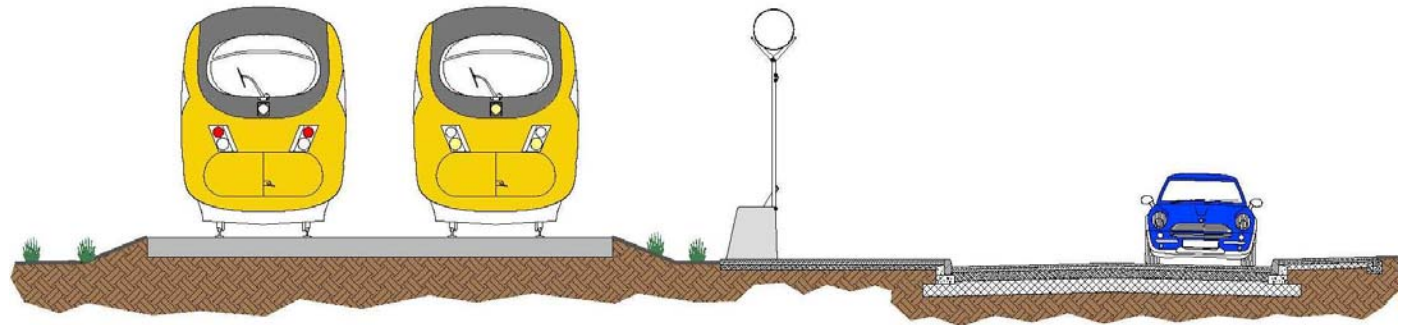

Safe separation between railway and highway

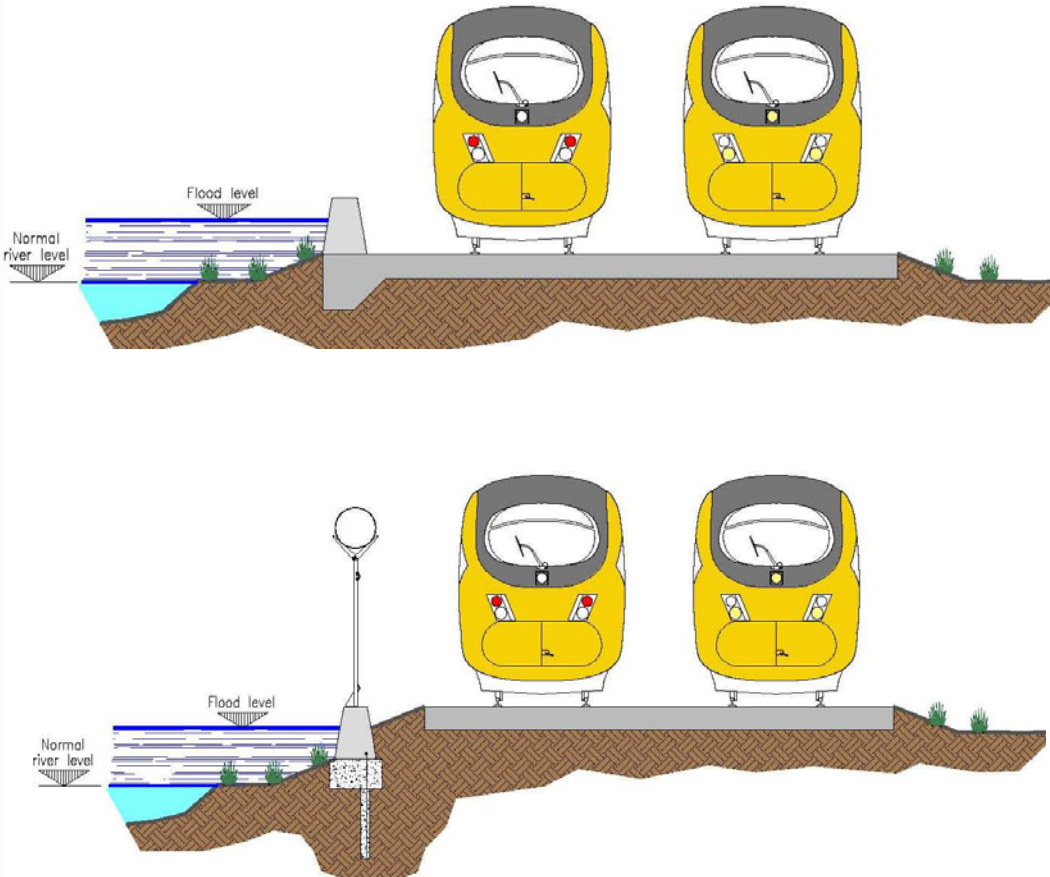

Security Barrier - BsecB

- Anti-terrorism
- Stop vehicle born explosive devices
- Protect strategic infrastructure

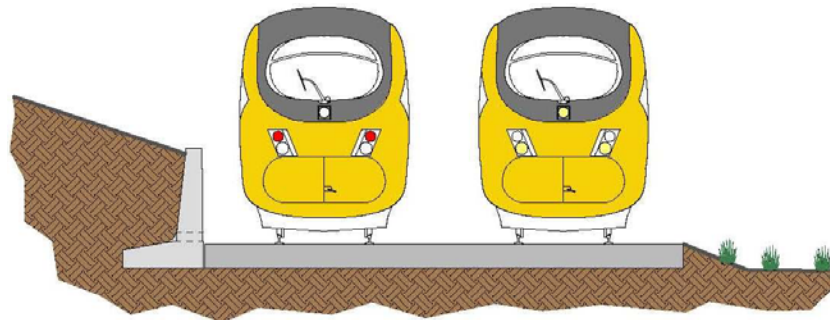

Flood Barrier

- Simple and easy to implement
- Multiple solutions

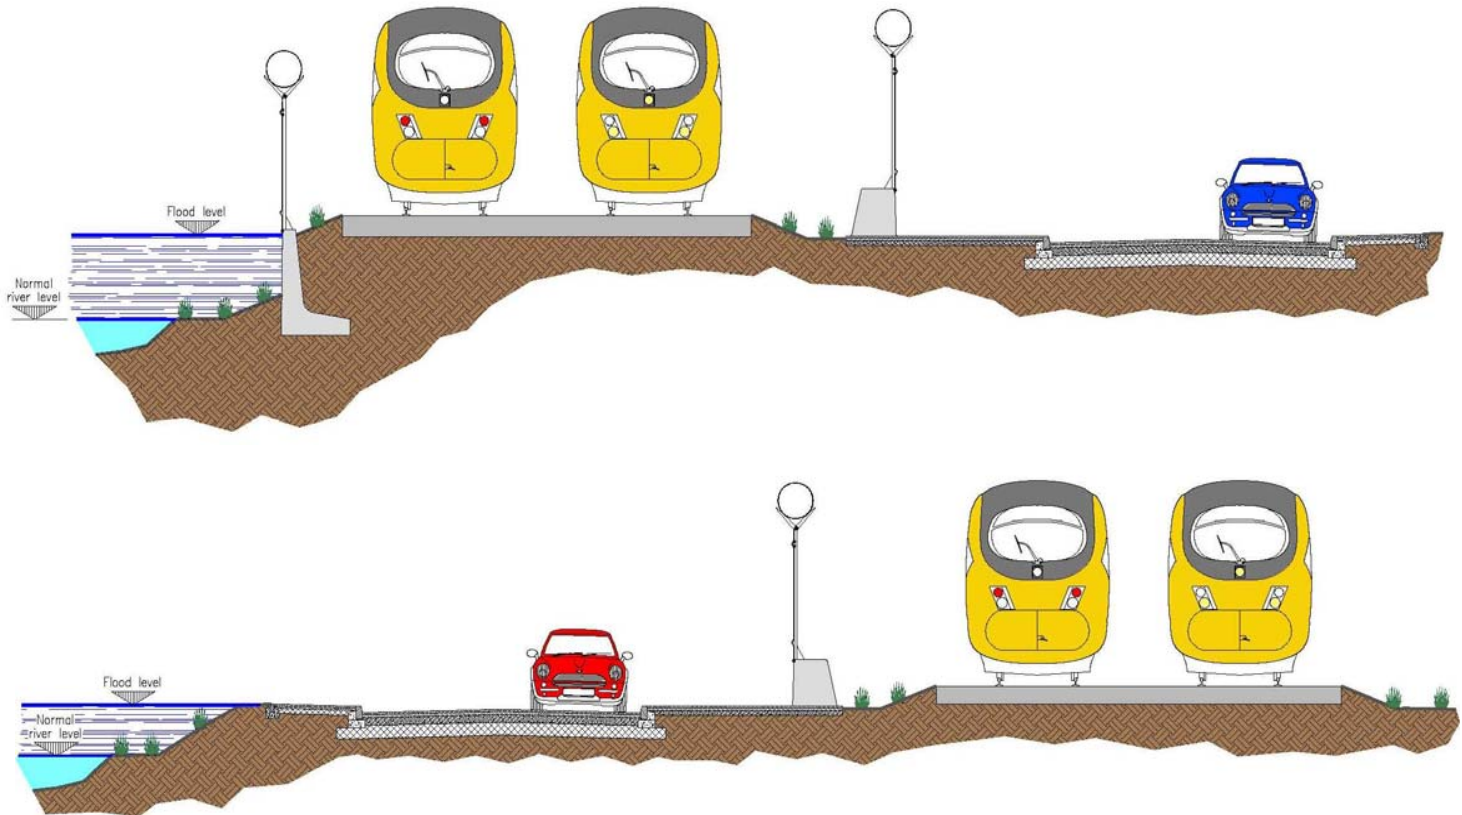

Retaining Walls

- Reinforced or plain concrete
- Plastic structural fibres
- Up to 2.0m height in slipform

Multipurpose Solutions

Combine functions of concrete barrier systems

Sustainability

- Effective mechanised solutions
- PAS 2050 compliance targets
- Reduced CO₂ emissions
