Drivers for managing environmental performance

- Legal requirements
- Responsible company
- Stakeholder company

Main environmental impacts

Managing environmental impacts

Health, Safety & Environment Policy

The TFL Board, Commissioner and Managing Directors are committed to having health, safety and environmental (HSE) performance that we can be proud of.

By implementing this policy through HSE management systems, we shall:

Plan improvements in HSE management by:

- Complying with the spirit and the letter of HSE legislation, Approved Codes of Practice, internal HSE management systems and external HSE standards.
- Ensuring the risks to the health and safety of employees, customers, contractors and 3rd parties are systematically managed to as low as is reasonably practicable.
- Setting progressive objectives and targets to improve HSE management and performance in line with sustainable operations and Mayor's strategies.
- Taking due account of HSE risks and benefits in decision making and as an integral part of the business planning process in looking forward to longer projects.
- Striving to realise environmental benefits, in addition to positive practices, with a focus on managing operations and mitigating the effects of, and adapting to climate change.
- Actively supporting the Mayor in delivering the environmental strategies on air quality, ambient noise, biodiversity, energy and municipal waste.

Engage and operate effective risk control systems by:

- Ensuring employees have the competence and resources to discharge their personal responsibilities for HSE matters and encouraging a positive HSE culture.
- Providing employees with access to services to promote health and wellbeing.
- Providing personal, plant and equipment and systems of work that contribute to a safe and healthy work place and minimise risks to the environment.
- Securing the consistent and involvement of all employees in supporting HSE management through effective communication and consultation mechanisms.
- Ensuring arrangements with contractors provide and actively support the implementation of this policy.
- Planning for foreseeable emergency conditions to ensure effective risk control and incident management in its place.

Monitor HSE performance, taking corrective action where required by:

- Monitoring HSE management systems indicators to improve performance.
- Ensuring that root causes are identified in the investigation of accidents.
- Effecting auditing arrangements are in place to provide assurance and to identify and ensure appropriate corrective actions where required.

Deliver regular management reviews:

- Regularly review the suitability and effectiveness of HSE management, including this policy, and undertake improvement action where appropriate.

This policy shall be communicated to all employees and be publicly available.

How we manage environmental performance with suppliers

- Specific environmental elements in contracts
- Company standards – some of which apply to our suppliers, e.g. reporting on performance, risk + impact assessment, etc.
- Working in partnership
